**Press Release Summary:** [www.SoulRevolver.com](http://www.SoulRevolver.com) has leather jackets for men and women in vintage 70's style.

Press Release Body: [www.SoulRevolver.com](http://www.SoulRevolver.com) has leather jackets for men and women in vintage 70's style. We also sell movie replica jackets including the Fight Club jacket along with motorcycle/biker and goth/gothic leather jackets.

**Soul Revolver** began in the business of selling vintage style leather jackets in 2005. We stick by our promise to offer the customer our high-end service in the following areas:

**\*The finest A1 grade cowhide leather available.** We do not believe in taking short cuts with our leather jackets by using the more commonly used, cheaper nappa leather. Instead, we offer higher quality aniline cowhide but still keep the price down so you do not have to sacrifice the quality over price. We feel this leather is perfect. It is not too thin, nor too thick. It is quite soft to the touch but not too soft. Definitely not stiff and uncomfortable. This along with our slim fit, the jackets will fit you like a glove, a second skin.

**\*This leather goes perfectly with our slim fit which is just as important in perfecting our leather jackets.** Over the last few years, we have fine tuned the cut. As our jackets are made to order you have the luxury of receiving the leather jacket made just for you. Tall and slim or short and stocky? Not a problem, we will alter the torso and length to be just right for you. We understand that everyone is different. How can a standard size fit everyone? It cant.

**\*The styles.** We stay as true as we can to vintage style leather jackets to make sure the look is authentic. The same applies to our movie replicas. We will get as close as we can and constantly update and perfect our leather jackets until it looks like you plucked it straight from the screen.

**\*Our service.** We believe no matter how nice a product a store sells, it means nothing if the service lacks decency, understanding and

patience. Feel free to ask us any questions you'd like regarding styles, leather, fit or anything else. It is your money and we want to make buying from us will be the best leather jacket investment you ever made so we are happy to discuss it over with you before you purchase. We also offer the freephone service in the UK and USA to give you piece of mind when calling us. No high rate telephone charges here, no charge at all.

**\*The future.** We have big plans here at Soul Revolver. We are working on many more vintage styles. We are also going to branch out adding styles in other areas. Keep checking back and read our blog to keep up to date!

Thank you to all our customers over the last three years. You have helped us to grow, adding new leather jacket style and pursue new ideas for the future.

We also sell replica movie jackets including the Fight Club leather jacket worn by Brad Pitt's Tyler Durden character, and the jacket worn by Robert Downey Jr in Iron Man.

Your endless search for the perfect leather jacket has come to an end.
