

California's Cliffside Malibu offers exclusive alcohol rehabilitation treatments!

Released on: November 24, 2008, 7:57 am

Press Release Author: <http://www.cliffsidemalibu.com>

Industry: [Healthcare](#)

Press Release Summary: According to the latest alcohol statistics, half of all driving fatalities in the U.S. involve alcohol, and until we take some sort of action, the death toll is going to keep rising.

Press Release Body: At **Cliffside Malibu**, a full service residential [alcohol treatment](#) center in the Los Angeles area, a team of highly trained experts are ready to take action with the new and effective alcohol rehab programs. They are highly qualified professionals and support each individual with customized programs for any kind of addiction.

Cliffside Malibu has a breathtaking view of the Pacific Ocean. It is the privacy as well as state of the art, luxurious sanctuary that attracts the

elite to this [alcohol rehab center](#), as well as an extended care facility. The treatment not only includes detox, but group therapy if required, individual therapy, depression and anxiety treatments, and much more.

Alcoholism is not only a physical disease but a psychological disease as well. For a true [addiction treatment](#), a good night's sleep is key to the healing process. **Cliffside Malibu** is an alcohol rehab center that prides itself on their outlook on treating someone with an addiction. The exceptional staff understands that each individual, although

suffering from the same "type" of disease, needs unique treatment. This treatment center is much more than just group sessions. The staff caters to each individual's needs.

Alcoholism is a serious disease that affects people from all walks of life. Not only do your blue collar workers suffer from this disease, but celebrities that we know and love, sports figures, musicians and politicians also succumb to this as well. Instead of looking down on these people, we need to respect them and give them full credit that despite the world watching them, they were able to admit not only to others, but most importantly themselves that they have a problem. And moved forward by taking action and getting the help that they need.

Cliffside Malibu did not become one of the top leaders in addiction treatment overnight. They also do not focus solely on Alcoholism. At Cliffside they understand that many times one addiction can lead to others, and they offer treatment for drug

addictions as well. There are people that come in with multiple addictions, and Cliffside does not treat these people any different.

Each individual undergoes through an evaluation process by one of the staff members, and based on their evaluation will begin their healing process in whatever way they see fit.

There are many negative thoughts out there in regards to addiction rehabilitation centers. At **Cliffside Malibu**, they offer luxurious beds for that good nights sleep. On top of the highly trained, doctors, therapists, psychologists, etc they have their own chefs that prepare fresh meals every day. This secluded rehabilitation center is top of the line, and goes to extreme lengths to make sure that each individual finds their path to sobriety.
