

Cut Your Wedding Costs in Half!!

Released on: November 19, 2008, 6:16 am

Press Release Author: Brian Pike

Industry: [Internet & Online](#)

Press Release Summary: Having two guests' lists for your wedding, one for guests who can attend and one for virtual guests will help you save half the money you would spend if all the guests physically attended your wedding. Broadcasting your wedding live to half your guest list can cut your wedding costs in half!

Press Release Body: By having two wedding guest lists, one for those who can physically attend your wedding and one for those who can attend virtually; you can cut the cost of your wedding in half!!

[LiveWeddingBroadcast.TV](#), a live wedding broadcast service offering of **WebWax.Net**, allows Brides and Grooms to save money on their wedding in these hard economic times. It's no doubt that everyone is watching how they spend their money not sure of what the future holds. According to AOL and the National Association of Catering Executives, "people are increasingly watching their pennies. They are booking their affairs in off-peak times and reducing the number of guests

they invite to their wedding.” Brides and Grooms, who already set their wedding dates before the hard times hit, are finding themselves more challenged.

One major cost associated with weddings is the cost of the reception. Reception costs are directly proportional to the number of invited guests that can attend the wedding. The Wedding Report statistics show that for weddings having less than 50 guests, the average reception cost is \$10,600. Weddings with 50-100 guests, reception costs average \$17,500; 100-200 guests, \$27,000; over 200 guests, \$57,000. One choice is that Brides and Grooms can choose to invite fewer guests to the wedding event in an effort to save significant money for their wedding. However, shouldn't Brides and Grooms invite anyone they want since it is their wedding day?

By having two guest lists and choosing to invite guests online through the use of [LiveWeddingBroadcast.TV](http://www.LiveWeddingBroadcast.TV), Brides and Grooms can invite all of their friends and family to share in their special day. For as little as \$150, you can invite up to 25 guests online; or for \$250, you can invite up to 50 guests; or create a custom package to meet your needs.

Another new issue facing Brides and Grooms are that more of their invited guests are making the decision to not attend their wedding due to budget constraints. Although they want to attend the wedding, many people can't afford unexpected hotel expenses, extra gas expenses, and airfare to wedding locations. [LiveWeddingBroadcast.TV](http://www.LiveWeddingBroadcast.TV) is the best solution for Brides and Grooms faced with these challenges, easing the financial burden for their guests. The money that the guests save from not having to travel to the wedding can be used to purchase the newly married couple, a wedding gift through the online registry in the [LiveWeddingBroadcast.TV](http://www.LiveWeddingBroadcast.TV) service.

[LiveWeddingBroadcast.TV](http://www.LiveWeddingBroadcast.TV) is the perfect solution for those couples who can't afford to invite all the guests that they want to invite or have guests who can't afford to physically attend the wedding. For the online guests, it is just like being there since it is broadcast live in real-time. LiveWeddingBroadcast.TV is also a great solution for those couples who have friends or relatives serving overseas.

Now Brides and Grooms can save money, have the wedding of your dreams, and have everyone there to share their most special day with them!!!!
