Press Release Summary: Washington DC Cosmetic Dentists offers patients a Free Virtual Smile Makeover and Analysis online. Whether its teeth whitening, porcelain veneers, dental implants or Smile Makeovers, cosmetic dentistry is becoming more popular among people looking to make a few self-improvements or a drastic change.

An advertisement for a virtual smile makeover. On the left is a photograph of a young man with short brown hair, wearing a light blue dress shirt and a dark tie, smiling broadly. The background is black. To the right of the photo, the text reads: "Picture Yourself in a Perfect Smile!" in a light blue, sans-serif font. Below that, in white, is "Is Cosmetic Dentistry right for you?" followed by "Upload your photo and see how you could look with an" in a smaller white font. At the bottom right, the word "ONLINE" is written in large, bold, light blue letters, and "Photo Smile Makeover" is written in white below it.

Press Release Body: A **Smile Makeover** is a complete transformation of your smile. Dull, discolored teeth can be whitened. Crooked, gapped or overlapping teeth can be corrected by veneers. Missing teeth can be replaced. Chipped teeth can be repaired. Protruding gums can be recontoured. If you have any outdated metal fillings, they can be removed and replaced with natural looking porcelain or composite resin. The results are dramatic and can usually be accomplished in two visits.

Your smile is an important part of making your best first impression. Missing, crooked, chipped, or stained teeth can distract from an otherwise pleasing look. Besides their flaws in appearance, missing or chipped teeth can lead to a misaligned bite, problems with speaking or chewing, and jaw joint or TMJ disorders. If you have been looking

for a cosmetic dentist who specializes in extreme smile makeovers, look no further. The Doctors at **The Washington Center for Dentistry** believe that improving ones smile leads to a change of overall appearance and self confidence. The difference can be life changing. They take pride in their ability to transform average smiles into dazzling smiles and take a comprehensive approach to smile makeover procedures at **The Washington Center for Dentistry** of Washington DC, their DC metro area practice. When making a decision about how to proceed with cosmetic dental treatment, it is important to know not all dental offices are the same. Anyone can claim to be a cosmetic dentist, even a doctor with no training or experience. Schedule a complimentary smile evaluation and see the difference for yourself!

Virtual Smile Makeover Online:

Potential patients are encouraged to visit us online at www.dc-cosmetic-dentist.com to request their virtual smile makeover and analysis kit. After submitting their contact information they will be able to undergo a virtual smile makeover in which they will be instructed on how to submit a photo and request to our system. The potential patient will then receive a custom virtual smile makeover that will

include a before and after photo of how they could enhance their smile cosmetically along with some information from our team of dentists that will be specific to their needs.

Smile Makeover Treatments and Procedures:

We use the most advanced cosmetic dental technology and techniques to achieve the finest smile makeover results. We take pride in the countless beautiful smiles we have created through high-quality cosmetic and restorative dental procedures such as Invisalign®, porcelain veneers and crowns, BriteSmile® teeth whitening, laser gum recontouring, bonding, and more. Our patients have been consistently pleased with the way their smile makeovers have dramatically altered their appearance, boosted their confidence, and changed their lives.

The Smile Makeover Consultation:

During a smile makeover consultation, we will assess your teeth to determine which treatment options would best suit your unique dental needs. They will go to great lengths to ensure that you are completely comfortable and satisfied with your smile makeover. The result is an exquisite, natural-looking smile that you can be proud to show off. Get the smile you have always wanted, today.
