Press Release
Body: [OkeHampton Payday Loans](#), located online at [OkeHampton.net](#), recently launched their online payday loan

website to assist more customers in obtaining cash on demand. Customers who use the OkeHampton Payday Loan service are now able to complete a short application process 24-hours a day, 7 days a week in order to secure up to \$2500 in loan funds.

With the recent controversies surrounding payday loan services, the **OkeHampton Pay-day Loans** website also provides educational resources to its clients in an effort to pre-vent payday loan abuse.

Founder of the [Payday Loans](#) website, Gregory Applebee stated, "*Companies often allow payday loan clients to grossly abuse the services in a way that makes it impossible for the loan to 'help' their economic situation. Our website stresses that a payday loan service shouldn't be abused. We have found that when used at the right times, a payday loan actually saves our clients large amounts of money in bounced checks or late fees.*"

The decision to go online with the website was an effort to reduce overall company costs while increasing the overall amount allotted to each customer. [Payday Loans Positives](#) It also allowed the **OkeHampton** company to extend its normal operation hours to accommodate clients that required services beyond the standard 9-5 Eastern Standard Time operating hours.

"OkeHampton understands that most of our clients need money fast for emergency situations that can't wait until 9am to solve and those that don't always occur before 5pm. With our new site, we focus on getting clients the information and the funds they need, when they need them.", **Applebee** states.

The website includes [Payday Loans FAQ](#) a Frequently Asked Questions section which points out not only the positives of payday loan services but also the negatives. The purpose of the FAQ is to make payday loans aware of the dangers of improper use of the loan service. For example, it shows the a comparison between using the service weekly versus using the service every other month. In addition, customers with questions are encouraged to contact the **OkeHampton** customer service department for clarification of terms and offerings.
