Press Release Summary: How TON scratch cards work, what is the minimum and maximum sum and how to win on TON

Press Release Body: Nicosia, Cyprus December 29, 2008 – The phenomenon of online scratch cards has grown enormously in the past few years with more and more games becoming available. Although TreasureOnNet's games are very simple and easy to play, it is still important to know what the minimum and maximum amounts you can bet are, how much this means you can win and how to win.

Obviously, the more money you bet, the higher your winnings will be. While all of [TreasureOnNet](#)'s scratch card and guess screen games have different odds, the amount you can bet is the same for all of the games. The minimum ticket price for the scratch card games is \$1 while the maximum ticket price is \$10 with the tickets in-between going up in increments of \$2. Depending on the game, winnings for a \$1 bet vary between \$0.25 for finding one treasure chest and between \$20 and \$300 according to each individual game and whether the maximum number of treasure chests is 3 or 4. As its name suggests, among the scratch card games, Huge Treasure offers the highest winnings with the impressive easy cash sum of \$3000 for finding all 4 treasure chests.

Among the guess screen games, the ticket prices also range between \$1 and \$10 with the maximum amount of potential winnings ranging from \$0.25 for finding one treasure chest on a \$1 bet to \$2.5 for a \$10 bet. If you are lucky enough to find all 3 or 4 treasure chests, depending on the game, your easy cash winnings will be a minimum of \$20 for a \$1 bet to a maximum of \$3000 for a \$10 bet. Among the guess screen games, Magnificent Prize appropriately offers the best winnings, closely followed by Step by Step which is the hardest of the games.

TreasureOnNet offers its players total responsibility for choosing the amount of the bet and the subsequent potential sum of winnings. While we can't make it too easy for the players to win money as that would spoil the fun, there are always a few things to do to increase the chances of taking home a big instant win. Before playing for real cash, it is worth reading the rules of each game and playing at least once for fun as the more you understand the game, the greater your chances of winning real money are and the more exciting the game is.
