Horizon Family Solutions Founder Dore Frances, M.A., reveals new website that showcases Residential and Wilderness Treatment Centers Bend, OR, February 20, 2009: Horizon Family Solutions, LLC , a leading Educational Consulting firm, is delighted to announce the launch of their new website, viewable at www.TroubledTeenHelp.com.

With a hint of corporate flare, the new website offers many features with a sophisticated look and feel. Site visitors will enjoy the ease of functionality on searching for breaking news or browsing the bookstore, while allowing for a more personal visiting experience.

The site also provides users with a more comprehensive overview of addiction treatment centers; Christian based schools; college prep boarding schools; holistic treatment centers; preteen programs, family environment residential treatment centers; outdoor therapeutic programs; therapeutic boarding schools and wilderness programs.

The user-friendly layout has an up to date look and offers expanded service descriptions for all programs and schools listed.

Echoing sentiments of the company's creative side for bringing up to date information to parents and professionals assisting struggling and troubled teens, **Dore Frances, Founder**, commented , "*As the amount of residential treatment programs and wilderness programs*

have grown in numbers over the past eight years, so have the Internet advertising sites listings.

Many of these sites list anyone and everyone, with no overview as to the current licensing or struggles they may be having. Many of these sites list hundreds of programs and schools at a time, confusing parents and professionals even more when needing to make a best choice, a safe choice for an at risk child. I decided it was time to have a website that insures that when a parent is searching on their own, only the best programs will be made available as a first step measure. All programs are prescreened prior to the acceptance of advertising. If for any reason the program is shut down by the state, they are immediately removed as an advertiser until all concerns have been addressed. No one wants to take that kind of chance with their child. I had a lot of fun designing the site and I am very proud of the results."

Established in 2001, **Horizon Family Solutions, LLC** has rapidly gained notoriety within the **Educational Consultant and Residential Treatment Industry** as a dual service provider for parents and professionals.

The company celebrated its eighth year in business this month.
