Industry: [Healthcare](#)

Cosmetic-plastic-surgery.info offers online tool to compare prices of breast augmentation abroad. The website is dedicated to offering comprehensive information on cosmetic plastic surgery. For one of the most popular procedures, breast enhancement, the website provides online list of price comparisons from 46 surgeons and more than 20 clinics, the chance to see average procedure prices from clinics in three countries and more.

"Prices are the main reason why people go abroad for breast augmentation surgery," says Pavel Hilbert, managing partner of Cosmetic-plastic-surgery.info. "In this current economic crisis; we think more people will go abroad in order to see their cosmetic surgery dreams realized."

"Our prices are averaged from the middle costs and don't include the highest and lowest prices," explains Hilbert. "This makes for a more accurate view and the visitor can see exactly what is included for each price."

For example, on the portal you can learn that the prices for [breast augmentation](#) in the Czech Republic (average price around 1200 EUR) are about 30% lower than in Poland (average price around 2500 EUR); while in Croatia (average price around 3200 EUR) they are more than twice as high as in the Czech Republic. The same goes for Germany where prices are also approximately twice as high. But Hilbert cautions not to make your decision based on price alone. He says the most expensive doesn't mean the best; while the cheapest doesn't mean the worst; it all depends on the surgeon.

"Prices are affected by the type of implant used and doctors vary in which brands they prefer," says Dr. Libor Kment from Esthé plastická chirurgie, a.s. "Costs can also vary due to the surgeon's fee; number of days in hospital; the type of anesthesia used plus the consultation fee."

Online comparison of breast augmentation prices at [Cosmetic-plastic-surgery.info](http://Cosmetic-plastic-surgery.info) makes it possible for consumers to do their research online before making any major decision regarding breast enhancement.

[www.Cosmetic-plastic-surgery.info](http://www.Cosmetic-plastic-surgery.info) provides information about cosmetic plastic surgery abroad and presents it to the general public in Czech, English, German, Russian and more languages.
