Industry: [Consumer Services](#)

30 April 2010– Any consumer who wants to keep informed of the latest news from the energy and electrical industries is now able to do so thanks to re-launched website Electric.co.uk. The website is home to all the latest news updates on all the important electricity issues and details on other energy and power sources.

The website is owned and managed by leading web business stable ASAP Ventures and offers consumers news on a manner of energy sectors. The site carries all the very latest news from the [electricity](#) industry as well as all sorts of useful tips and hints on ways of cutting domestic power usage and saving energy.

With more people than ever now keen to stay aware of news on energy sources, Electric.co.uk can help them to stay on top of [electrical](#) energy news as well as other sources such as wind power, solar power, biomass energy and other renewable powers. The website was introduced by ASAP Ventures a year ago and the company recently re-launched the site with more features to celebrate its first birthday.

Anthony Jackson, spokesperson for Electric.co.uk, comments, "We believe that more people than ever now want to stay informed of all the latest developments in the energy industry, as there are massive environmental and financial implications for people. Our site can help

them to remain informed on the latest green and renewable energy resources and all manner of other [electric](#) issues.”
