FruitMachineOnline.co.uk has launched its brand new, free information service to help consumers interested in playing online fruit machine games enjoy the freshest pick of the bunch now on offer at good quality online casinos.

Slot machine games have already proven popular with online casino players, and interest is beginning to grow amongst that community in the pub-style AWP fruit machine games that offer an intriguing the traditional three-reel slots base FruitMachineOnline.co.uk provides guides to help newcomers to 'Fruities' get to grips with these gaming machines novel features, and entertaining reviews to help all levels of player choose a fruit machine with 'reel' appeal. FruitMachineOnline.co.uk prides itself on publishing only honest appraisals of the machines under review, eschewing the simple repetition of manufacturer press releases like many rival review sites do, to give its visitors a true picture of each game's features, strengths and weaknesses to let them compare the market and play online fruit machines that suit both their tastes and betting budget.

David Newstead, Founder of FruitMachineOnline.co.uk sees the site as a valuable new resource for online gamblers. "To date, most casino game guides have catered for the plethora of US-style slots that make

up much of the inventory of online casino sites. There was little in the way of proper, in-depth reviews for the pub-style online Fruit Machines that are beginning to attract players' attentions at the more innovative casino operators. We hope that our site will plug that gap, and get Fruit Machine fans in touch with the best games hitting this burgeoning market."

FruitMachineOnline.co.uk only features online fruit machines released by the most respected casino software companies, with proven track records of delivering online casino gaming that has won acclaim with players for its authenticity and the respect of industry professionals for its integrity.
