Cosmetic Dentistry, Digital X-ray, cosmetic dentists, Miami dentists, Fort Lauderdale dentists, South Florida cosmetic dentist, Boca Raton Dentistry, Fort Lauderdale Dentistry, Miami Dentistry, Invisalign Always at the cutting edge in dentistry, Dr. Charles Nottingham and his team at Smile South [Cosmetic Dentistry](#) are now offering the top-of-the-line Dexis Platinum [Digital X-ray](#) system to their patients. The Dexis system provides dentists with choices among various state-of-the-art sensors and comes with intuitive, easy-to-use imaging software.

Digital x-rays offer several advantages to patients. Gone are the days of waiting for X-rays to be developed. The [cosmetic dentists](#) can view the X-ray images instantly and review them with patients on the computer screen right away. Patients spend more time discussing their teeth with the dentist and less time waiting for the x-rays to be ready. Viewing digital x-rays with our [Miami dentists](#) and [Fort Lauderdale dentists](#) also means patients will have a better understanding of their dental needs and will be able to make informed decisions about their treatment.

Dexis digital x-rays are more environmentally friendly and expose patients to less radiation than other systems. The system is ergonomically designed to maximize patient comfort. The Dexis patented WiseAngle Cable Exit makes procedures more comfortable for patients and provides cable flexibility to reduce stress on the equipment and increase its reliability.

"The Dexis system is a very affordable and effective x-ray option," says Nottingham, a [South Florida cosmetic dentist](#) "It gives me very precise and clear images, allowing me to make accurate diagnoses. It's cost effective and it saves me time, which also lowers my costs. I'm able to pass those savings on to my patients in the form of lower charges."
