Industry: [Entertainment](#)

TreeCardGames has released SolSuite Solitaire 2011, a Windows collection of more than 500 solitaire games that you can enjoy on your PC.

SolSuite Solitaire 2011 includes Spider Solitaire, Klondike, FreeCell, Pyramid, and all of the most popular solitaire games, along with dozens of original games that you simply cannot find in any other game collection. In addition to 511 different games, SolSuite Solitaire 2011 includes more than 80 professionally-designed card sets, 300 stunning card backs, 100 colorful backgrounds, and a selection of program skins to customize the playing area. The program's built-in animations add subtle enjoyment to the gaming experience.

The 2011 release of SolSuite includes an enhanced statistics package with stunning 3D graphics. Unlike the simple won/lost figures that you find in most game applications, SolSuite Solitaire 2011's statistics also let you track the progression of your winning games over time, as well as a calculation of your chances of winning. The 2011 release also includes a "check for update" feature that simplifies the installation of new game releases and new graphics. With more than 16 million downloads, SolSuite continues to be the world's most popular solitaire collection. SolSuite Solitaire 2011 offers enough game choices to last a lifetime.

Whether you're a business person who needs to take fun breaks from the rigors of work, a home user who needs to relax and unwind with a challenging game of solitaire, or a student who needs some time to relax between classes, SolSuite Solitaire 2011 delivers the entertainment and relaxation that you need.

SolSuite Solitaire 2011 runs under Windows 2000/XP/Vista/Windows 7, costs \$19.95(US) for a single-user license, and may be purchased securely online from <http://www.solsuite.com>. Each purchase includes one year of upgrades plus the SolSuite Graphics Pack, a library of professionally-crafted card sets, card backs, backgrounds, and skins that make SolSuite Solitaire 2011 even more fun to play.
