Industry: [Construction](#)

January maybe nearly over but the unpredictable weather and cold conditions look here to stay, at least for the short term. Working amongst unpredictable weather isn't always easy, though thanks to online workwear retailer [ebrookes.co.uk](#), the task is made a bit more manageable.

Ebrookes.co.uk, one of the uk's leading quality discounted [workwear](#) suppliers, have a fantastic range of outdoor jackets and fleeces to suit any workforce. They can even be customised to feature your company's logo too.

"Our selection of outdoor jackets are wide-ranging and suitable for anybody who works outside for any period of time," said Ian Brookes, founder of [ebrookes.co.uk](#)

"We have worked hard to offer a collection from famous brands including Dickies, Craghoppers and Carhartt and they are proving popular."

Available for both men and women and in a variety of colours, outdoor jackets at Brookes, like the rest of the Brookes catalogue which includes Carhartt trousers and Regatta walking boots, are also sold at wholesale prices.

"A jacket can be an important part of any workwear, especially when working outside, so it is important to get it right."

"Our range of bodywarmers are bestsellers, as they are lightweight, fashionable and of course customisable, like the rest of our workwear range," added Brookes.

Many brands and retailers adopt slogans, but eBrookes.co.uk's "Making close personal" really is appropriate for this discounted retailer. Founder Ian Brookes has developed an embroidery service which has also proved popular with his loyal customers.

"We find providing the personalised clothing service really satisfies our customers and from as little as £1.10 per logo, our loyal customers are getting real value too."

It isn't just workwear Brookes specialises in, but work accessories too. Brookes supplies businesses with work and safety essentials such as gloves, helmets as well as first aid kits.

"It's great that so many of our customers see us as a one-stop shop for all their work needs. All our safety equipment is cleared by industry experts and still available at a great price," added Brookes.

The eBrookes brand has been providing quality and affordable workwear to workforces around the country for eight years, offering an extensive range of quality and durable garments at unbeatable discounted prices. eBrookes provide a range of Hi Vis and personalised clothing which are ideal for workforces and teams, from established brands such as CAT, Dewalt, Fruit of the Loom, and Carhartt.
