

TicketsBuy Launches Event Tickets Comparison Engine

Released on: February 9, 2011, 07:57 am

Author: [TicketsBuy](#)

Industry: [Entertainment](#)

Purchasing live entertainments has become a complete and total drag? Whether you want to attend a sport event, a concert or even go to the theater. Then check out this site that might turn out to be of your interest. [TicketsBuy.com](#) is an online search engine for live event tickets, based in San Francisco CA.

TicketsBuy provides the most comprehensive, accurate, fast and easy-to-use resource for fans to find the tickets they desire to sports, concerts, and theatre events. [TicketsBuy](#) aggregates event-level ticket data from dozens of event ticket providers and helps concert, theatre and sports fans search among millions of tickets to find exactly the event tickets they desire. TicketsBuy does not sell tickets directly to its end-users. Instead, it aggregates event-level ticket data from ticket providers, presents that data in response to user searches and directs users to third-party ticket providers for purchase. You can look for sports events by the type of sport or also by region, and you can look for a theater event by type (cirque, comedy, musical) or by region. TicketsBuy search engine combines results from ticket issuers and various providers in the ticket resale industry including ticket resale marketplaces such as RazorGator, SeatQuest, TicketNetwork and TicketsNow as well as ticket brokers including Ace Ticket, AllShows.com, Barry's Tickets, Gold Coast Tickets and over 100 more independent Ticket Vendors .
