Industry: [Computers](#)

Label supplier South East Labels now offers a full range of labelling systems to cater for demands across the industry.

South East Labels extensive range of labelling systems and products includes ink labels and digital printing, hot foil labels, security and asset tracking labels, cryogenic and antimicrobial labels, barcodes and bubble badges.

South East Labels can produce printed rolls suitable for thermal transfer and thermal direct systems as well as coloured/printed labels manufactured by a variety of methods and range of materials. Pre-printed sheet labels are also available to order for inkjet/printers. Their comprehensive range of services include: standard and custom sizing options, numerous materials including, paper and synthetics such as polyester, clear polypropylene, ultra-destructible, tamperproof, laminated, waterproof, 'void' and perforated, many different adhesives including permanent, peelable, easypeel, watersoluble, freezer and chill perm.

If you have a particular labelling requirement, it is best to start off with some advice and samples from a supplier. South East Labels manufacture samples and labels from the highest quality material, which is of particular importance if the labels are to be over-printed by thermal transfer or thermal direct printers and for the successful scannig of bar codes.

South East Labels can offer customers advice on choosing a labelling system to best suit their requirements. For scanning or verifying equipment the company gives demonstrations of the most suitable models for each job.

For the use of thermal transfer ribbons South East Labels can help source and test your materials. To get the best from your chosen system, ribbons must be compatible with your labels. Access to many types of ribbons and face papers is paramount. South East Labels provides Label Converters that can produce plain and clear labels on rolls suitable for all makes of thermal transfer printers to ensure the highest quality finish.

### **About South East Labels**

South East Labels was established in 1988 as a supplier of labels and labelling systems to a wide variety of industries. Customers will find a diverse range of label and printing solutions on offer to meet the various demands of their printing requirements.
