Industry: [Financial](#), [International Trade](#)

July 10, 2012, 4:28 pm -- /[EPR NETWORK](#)/ -- DAWSON WHITE TRUST announced it now offers Muni Stats abstracts and Muni Stats DOCS® Online documents as part of its Fixed Income tool set, disclosing all material facts about market transactions related to municipal bond offerings, directly at the point of investing.

Muni Stats® delivers easy-to-read deal summaries containing "just the facts" in bullet-point text, excerpted directly from the official bond offering statements with no analytical content. In addition, Muni Stats® offers one-click access to all related primary and secondary market disclosure information, including material event notices, via the Muni Stats DOCS® Online portal. Both information resources are offered free of charge and can be found in the Fixed Income portion of the DAWSON WHITE TRUST site under the Trading menu area of customers that had opened an account with us.

“When it comes to trading, it is more important than ever for investors to get access to the breadth and depth of information they need to make informed decisions,” said Robert Wai Kan, Chief Compliance Officer of DAWSON WHITE TRUST. “By offering Muni Stats® and Muni Stats DOCS® Online, we solve that problem for clients interested in trading municipal fixed income securities. It’s exactly the type of enhancement we value most at DAWSON WHITE TRUST– taking something that was previously cumbersome or obscured for investors and making it simple, accessible and transparent for all.”

### **About Dawson White Trust**

Dawson White Trust is a leading securities servicing provider that helps alternative asset managers, broker dealers and regular clients optimize efficiency, mitigate risk and enhance revenue. At Dawson White Trust we focus on leading technology and deep industry expertise to advise clients on investments around the world. Our clients expect us to bring them innovative insights and solutions to meet their unique strategic needs. In return, we bring together the most talented people and we develop the expertise and resources needed to deliver accurate and intelligent advice.
