

# Bookings of Kenya Safaris and Tour Packages in the Peak Season Experiences Increase as Tourists Arrive

NAIROBI, Kenya, 2019-Jul-09 — /EPR Network/ — The tourism industry as well as being a saviours of Kenya's animals, is also a livelihood of many families and contributes highly to the GDP of Kenya's economy.

Keep the Elephant and Rhino safe and sound. Environmentalist has been on top of the game to preserve and conserve the Elephant and Rhino from illegal trade especially to Asian Countries.

Just as the fight for conservation of forest was done in Kenya by the late Professor Wangari Mathai which led to the restoration of the Mau forest and the Aberdare forest, Cruzeiro Safaris believe that the course of the elephant will also be achieved.

The Elephants are mostly located in the large parks in Kenya namely Tsavo, Amboseli, Samburu, Maasai Mara. The Rhino can be found in Nakuru and Maasai Mara. #daytrips to Lake Nakuru National Park or a night can give you a chance to see the white #rhinos. A one or two night stay in Amboseli will have one's eyes exercised by the moving big five and large herd of elephants. After the experiences then Cruzeiro Safaris will add an additional place in Nairobi if you have time where you can adopt an elephant for only USD50 per year.

Book a safari for two (2) night stay Amboseli National Park road safari and get free offer for lunch at the carnivore restaurant after the safari.
