

HP Makes History with One-Of-A-Kind Laser Printer and World-Premium Toner

Irwindale, California, USA, 2019-Oct-11 — /EPR Network/ — HP manufactures a laser printer called the Neverstop Printer and premium toner tank technology that the world has never seen before.

The laser printer is ideal for businesses because of its high efficiency whereby it saves the customer 80% of the amount spent on other laser printers, reloading takes a mere 15 seconds only, and the kit ensures that there is no mess when reloading. It can print 10x more pages with each round, and the box can hold around 5,000 papers.

HP Printer Includes Smart New Designs for Businesses

Experts predict that the number of small to micro businesses in China will rise to 43 million in 2020 and that these businesses will be valued at an estimated 60% of the GCP. The new and ingenious HP Neverstop technology is then a very relevant option for entrepreneurs. It is specially made for small, new businesses and home offices.

HP Neverstop is a smart printer that creates top-quality printings and long-lasting ink and inkjet cartridges, producing a smoother experience that is 38% faster than other HP printers. It has an automatic sensor incorporated inside that sends an alert just before the inkjet cartridges are empty. These features ensure that the toners are easily replaced without the work flow disrupted by multiple interruptions.

A research conducted by HP's printing managers showed that up to 70% Chinese entrepreneurs of small businesses expressed that they are unable to run their businesses without the use of a printer. With that said, HP's new invention will enable their businesses to run with even higher efficiency needed to thrive in such a competitive market. Neverstop is made easy to use with the help of applications on the mobile phone and digital integrations.

The Features of HP Neverstop

Sustainability – upcycled plastic constitutes 25% of the total weight and 75% of the kit for toner reload

No Interruptions – can print 5000 pages with zero interruptions in a given session

Quick and Mess-Free Reloads – toner loads can be replaced easily and quickly within 15 seconds

Great Quality – quality output is as good as other HP products

Mobile and Accessible – HP mobile app enables smart and efficient scanning and printing options using a mobile phone

The Debut of HP’s Smart Tank Toner

HP’s tank toner design is the 500/600 edition, and the first of its kind, ushering entrepreneurs into an era of time-saving technology with superb quality printing.

Its features are as follows:

Reliability and Speed – 38% faster than other printers, uses shortcuts and smart apps

Quality Printing – professional-quality printing

No Interruptions – sensor sends an alert before the inkjet cartridges are empty

Handy and Flexible – can be used via mobile apps for printing and scanning
